Projects

Portfolio [🔗](#)

A personal portfolio website showcasing front-end projects, built with HTML and SCSS. Highlights responsive design, clean code, accessibility, and user-focused design principles.

LeaderShip [🔗](#)

Built a responsive website with HTML, CSS, and JavaScript, featuring a clean design, smooth transitions, and interactive elements.

Kochi [🔗](#)

Completed a front-end project for Udacity's Nanodegree, building a fully responsive website with HTML, CSS, and JavaScript. Focused on mobile-first design, clean code, accessibility, and interactive features.
